DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: The invention as now claimed is not disclosed nor rendered obvious in view of the prior art of record. As to independent claim 1, the prior art of record fails to teach or suggest, alone or in combination, the recited method, in which the user of a portable communications device is able to receive broadcast audio messages, wherein the portable communications device is not required to make transmission to the beacon to initiate transmission by the beacon before receiving the transmitted messages, extracts the audio broadcast data from the additional data field, and reproduces the audio to the user. As to independent claim 3, the prior art of record fails to teach or suggest, alone or in combination, the recited system, in which a beacon device is capable of wireless message transmission, and at least one portable device is capable of receiving the message transmission, where the beacon is arranged to broadcast, without receiving a communication from the portable device. No prior art was found that discloses or teaches the limitations of claim 3.
3. Claims 2 and 4-10 are dependent upon claims 1 and 3, respectively, therefore, claims 2 and 4-10 are allowed.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
